

FREE JOINT MULTI

Multi-Zone Mini Split Air Conditioner

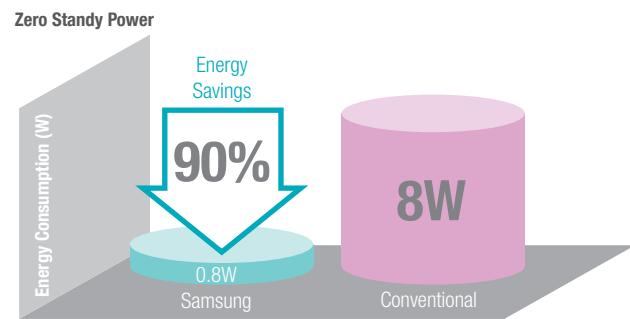

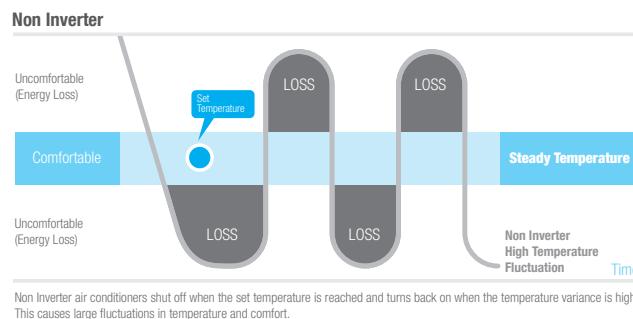

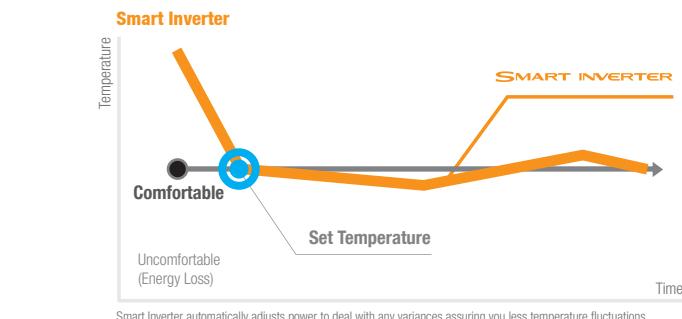

The Benefits of Free Joint Multi

► SMART INVERTER

The Free Joint Multi system employs Samsung's Smart Inverter control system, which enhances the efficiency of the outdoor unit - depending on the number of attached indoor units and the temperature setting. The Smart Inverter system works at maximum capacity at start up, and as soon as the set temperature is reached, it finely adjusts to cope with any changes. This translates to less temperature fluctuation and greater comfort - which can be achieved in minutes. Also, because the outdoor unit's compressor works at a low speed to maintain the desired set temperature, noise levels are at a minimum, allowing you to enjoy your FJM system in virtual silence. Another important benefit of Smart Inverter is the fact that it gives you powerful, quick cooling and heating with minimal energy consumption, reducing waste and ultimately, saving you money.

Samsung's Smart Inverter air conditioners have Zero Standby Power, which saves you money even when the system is turned off. The improved control board uses minuscule amounts of energy when off, resulting in 90% more savings than conventional air conditioners, which can use an incredible 8W.

► One Outdoor Unit - Multiple Indoor Units (up to 4)

Samsung's Free Joint Multi air conditioning system is perfect for multi-room applications. Connect up to 4 indoor units (mix and match 4 different styles) to 1 outdoor unit - each indoor unit is controlled independently from one another. And since you're only using 1 outdoor unit (which is also very slim in size) little space is wasted outside. The total connected capacity range is 18,000 - 36,000 BTU.

► Install Indoor Units on Multiple Floors

With the Free Joint Multi, the maximum pipe length is 100 feet for 2 indoor units and a total of 225 feet for 4. The maximum difference in height is 49 feet. This makes the FJM system ideal for residences up to 3 stories high and for rooms that are relatively far apart from each other.

► Twin BLDC Compressor

Free Joint Multi outdoor units use a twin BLDC compressors with highly stable moving parts which reduce torque variation by 70% when compared to a conventional single BLDC compressor.

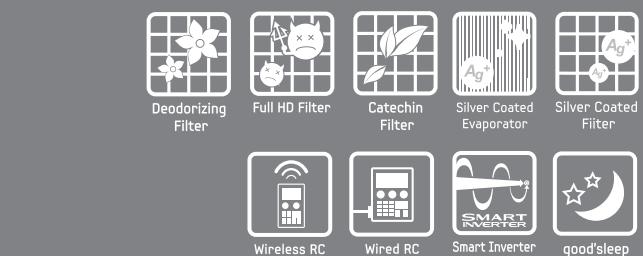

► Low Noise

The FJM compressor is covered by a double-layered sound insulation material, which absorbs and minimizes the noise it generates during operation.

NEO FORTE

MH026FNCA - 9,000 BTU / MH035FNCA - 12,000 BTU / MH052FNCA - 18,000 BTU

► FULL HD FILTER

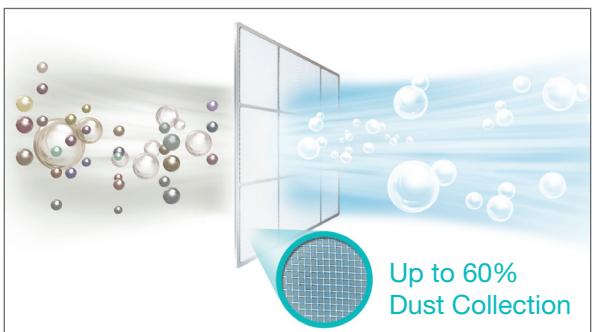

Samsung's Full High Density Filter ensures your room is kept fresh and clean. The Full HD Filter offers great filtration by removing even the smallest microscopic dust particles. It also transforms polluted air into clean, energized air.

- Anti-bacteria Coating

With the anti-bacterial coating on the Full HD Filter, it can collect even the smallest dust particles and viruses. Enjoy complete protection from unwanted bacteria so you can breathe clean, fresh air.

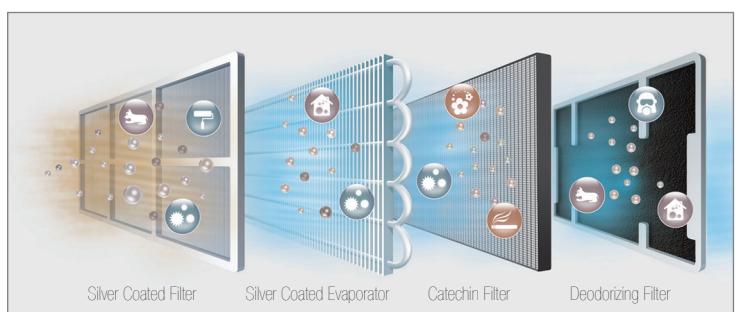

- Easy and Care-Free Filter Cleaning

Keeping your air clean and fresh has never been easier. To clean the Full HD Filter, simply wash out the dirt with flowing water.

► Multi-Step Air Purifying System

In addition to the Full HD Filter, the Neo Forte's Multi-Step Air Purifying system consists of several different types of air filters and technology that helps it eliminate and control the proliferation of bacteria and odor in the air.

- Silver Coated Filter
 - Silver Coated Evaporator
 - Catechin Filter
 - Deodorizing Filter
- The silver coating applied to the filter serves to trap and remove dust particles from the air. It also helps eliminate fungi and unpleasant odors.
- The fins of the evaporator are triple coated - 2 layers of chrome-free neo silica and 1 layer of silver. This ensures the efficient removal of condensation, which in turn guarantees the production of clean, fresh air.
- Catechin, which originates from green tea, is contained in this filter, which deactivates captured bacteria. It also helps control the odor that is caused by bacteria.
- Incorporated with activated carbon, this filter efficiently absorbs cigarette smoke, pet odors and other unpleasant smells.

► Design

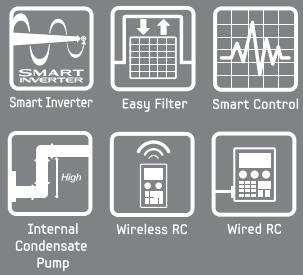

► Optional Wired Remote Controller

The Neo Forte can be operated with an optional wired remote controllers.

SLIM DUCT

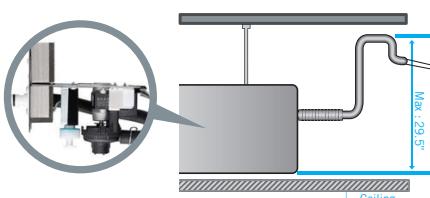

MHO26FECA - 9,000 BTU / MHO35FECA - 12,000 BTU / MHO52FECA - 18,000 BTU

**► Smart Pressure Control**

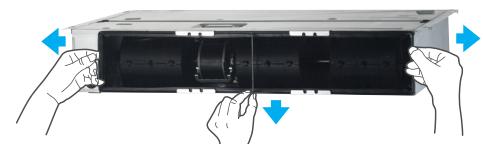

The Smart Pressure Control system automatically adjusts fan speed according to the external static pressure so the air conditioner always gives you consistent cooling and heating, regardless of the surrounding environment.

► Internal Condensate Pump (Optional)

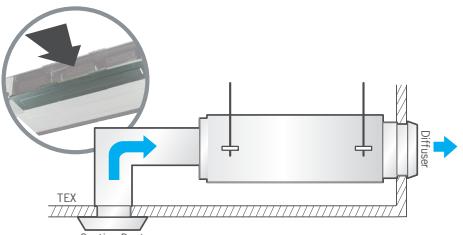

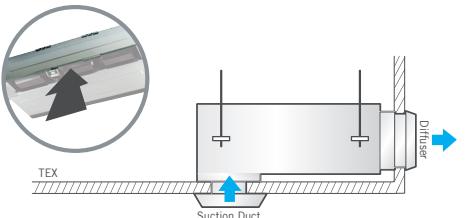

The pump lifts up to 29-1/2", making installation more flexible and convenient.

**► Easy Filter Cleaning**

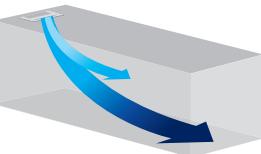

After 1,000 hours of operation, the filter clean indicator will notify you that the filter should be cleaned. 1,000 hours is the default set time, which can be adjusted to 2,000 hours on the internal PCB.

**► Flexible Installation**

The air inlet can be set up on either the bottom or the rear of the unit, allowing for a more flexible installation options.

**► Slim Design**

At only 7-7/8 inches thick, the slim design of this unit makes installation, maintenance and repair worry-free.

**1 WAY CASSETTE**NJ0261HXCA - 9,000 BTU
NJ0351HXCA - 12,000 BTU

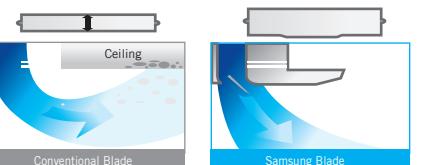

New Blade
Conventional

► Powerful Airflow

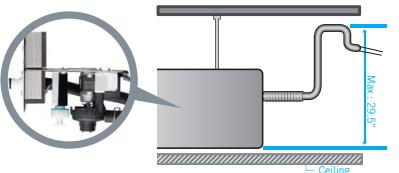

Wide blades in the indoor unit deliver cool or warm air at greater distances to provide even cooling and heating throughout the room.

► Ceiling Dust Prevention

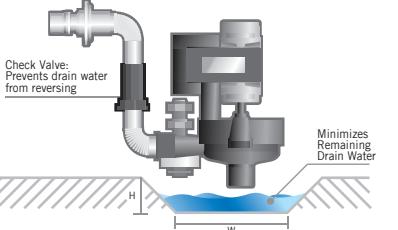

The newly designed panel will control air direction in a way to avoid contact with the ceiling. This new design will prevent dust from accumulating on the ceiling after long periods of operation, keeping your interior space cleaner than ever.

**► Internal Condensate Pump**

The pump lifts up to 29-1/2", making installation more flexible and convenient.

**► No Condensate Overflow**

The check valve on the drain pump prevents condensate from returning to the drain pan. This minimizes the drain pan's water level so you won't have to worry about water stagnation or condensate overflow.

**► Quick Drain Pipe Connection**

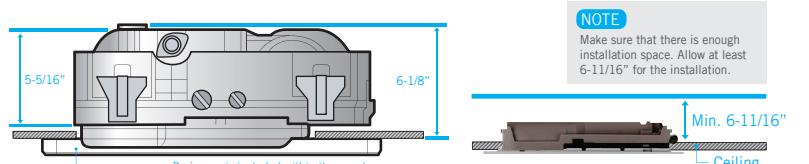

Samsung's unique drain pipe prevents leaks, and is easier to install because tape or adhesives are not required.

► Quiet Operation

Samsung's new blade design drastically reduces noise levels so you can relax in peace and quiet.

► Slim Design

The 1 Way Cassette indoor unit is only 5-5/16 inches thick and takes up very little ceiling space.

**► Optional Wireless Remote Controller**

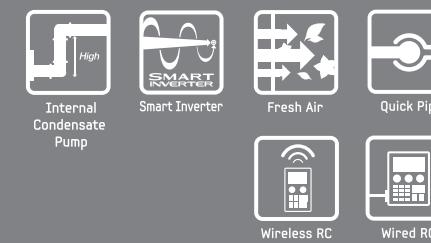

The 1 Way Cassette can be controlled via an optional wireless remote controller (receiver is built-in to the indoor unit).

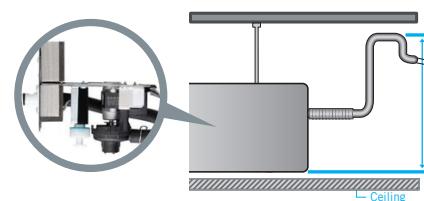

MINI 4 WAY CASSETTE

NJ030MHXCA - 9,000 BTU
NJ035MHXCA - 12,000 BTU
NJ052MHXCA - 18,000 BTU

► Internal Condensate Pump

The pump lifts up to 29-1/2", making installation more flexible and convenient.

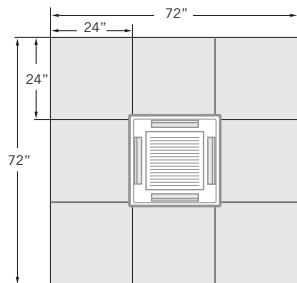

► Quick Drain Pipe Connection

Samsung's unique drain pipe prevents leaks, and is easier to install because tape or adhesives are not required.

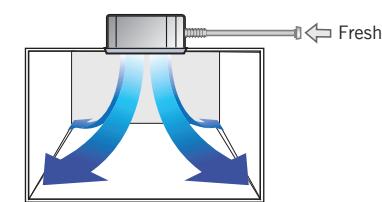

► Ideal Compact Size

The Mini 4 Way Cassette can be installed on one standard 24" ceiling tile.

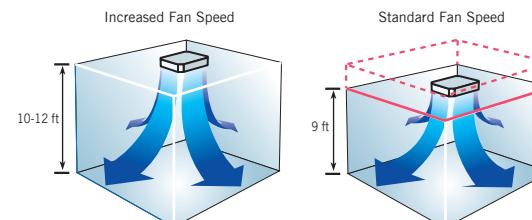

► Fresh Air

Fresh air can enter through the indoor unit so you can enjoy even fresher air in your room.

► Fan Speed Adjustment

The fan speed can be adjusted according to the ceiling height by adjusting the dip switch of the indoor unit's PCB.

► Optional Wireless Remote Controller

The FJM Mini 4 Way Cassette can be controlled via a wireless remote controller (separate receiver not necessary as it is built-in).

Free Joint Multi - Rated Matches

Dual Zone

► MH050FXCA2A - Rated Matches

This condensing unit can be matched with the following combination of indoor units:

- 2 X MH026 or NJ026
- 1 X MH026 or NJ026 + 1 X NJ030
- 1 X MH026 or NJ026 + 1 X MH035 or NJ035
- 1 X MH035 or NJ035 + 1 X NJ030
- 2 X MH035 or NJ035

Dual, Tri or Quad Zone

► MH080FXCA4A - Rated Matches

This condensing unit can be matched with the following combination of indoor units:

- 1 X MH052 or NJ052 + 1 X MH026 or NJ026
- 1 X MH052 or NJ052 + 1 X NJ030
- 3 X MH026 or NJ026
- 2 X MH026 or NJ026 + 1 X NJ030
- 2 X NJ030 + 1 X MH026 or NJ026
- 1 X MH035 or NJ035 + 2 X MH026 or NJ026
- 1 X MH035 or NJ035 + 1 X MH026 or NJ026
- 4 X MH026 or NJ026

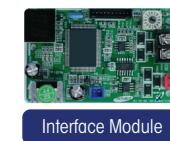

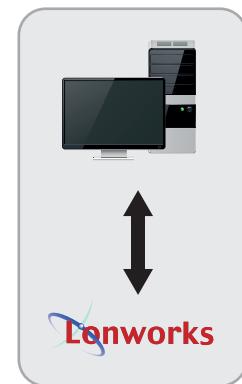

Free Joint Multi - Controls

Free Joint Multi systems can use many different controls in addition to the standard control systems provided with the units. These can range from wired remote controllers with both scheduling and multiple unit control capability up to a full Building Management System that remotely controls the system operation.

Available controllers include:

- MWR-WE10** - Wired remote controller with 7-Day Scheduling.
- SNET Mini** - Touch screen controller for multiple indoor units.
- DMS** - Data Management Server allows scheduling, control and remote monitoring/access (if web-enabled) to the systems. Scaleable to control multiple systems.
- SNET 3** - Building Management System allows scheduling and control. Scaleable to control multiple systems.
- Power Monitoring** - Ability to download power consumption for individual systems.
